

“*Thanks* to
Jones Lang LaSalle,

Volkswagen saved over 30 percent
in real estate occupancy costs.
Now that’s what I call driving real value.”

— Stefan Jacoby
President and CEO
Volkswagen Group of America, Inc.

When Volkswagen, one of the top automakers in the world, decided to reposition and expand its U.S. presence, they chose Jones Lang LaSalle for our expertise in commercial real estate.

In just 24 months, we helped secure two Volkswagen facilities in the United States – a new \$100 million North American headquarters and their only U.S. automotive production facility, a \$1 billion assembly plant.

“Jones Lang LaSalle enabled us to get closer to key markets and to connect, even more closely, with our customers,” Jacoby said. “At Volkswagen, that’s considered world-class engineering.”

Contact Jones Lang LaSalle today. You’ll discover we are committed to saving you money and building the kind of trust you can depend on.
